

# Paint a Rainbow.

## Important Facts:

A rainbow is made up of 7 different colours.

The colours are red, orange, yellow, green, blue, indigo and violet.

The primary colours are red, blue and yellow.

Secondary colours are made by mixing primary colours:

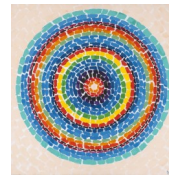

Red and yellow = orange

Blue and red = purple

Yellow and blue = green

## Art.

Henri Matisse is a famous artist who used colourful shapes to create 'The Snail'.

Alma Thomas is an African American artist famous for colourful abstract pictures. We will be comparing their work and creating our own versions.

## PSHE.

Our PSHE is about 'Me and my Relationships' where we will learn how we are all different and how to share, take turns and care for each other.

## Science

Key Seasonal words:

Seasons, weather, Autumn, Winter, Spring, Summer.

Plants change throughout the year. In the Autumn the leaves change colour and fall from deciduous trees. Plants produce fruit and seeds such as acorns, apples, blackberries and conkers.

Why not look for signs of Autumn on the way to school and in the Country Park?

Animals including Humans.

Key words: names of basic body parts and the 5 senses of sight, hearing, taste, touch and smell.
