

Highwoods Community Primary School

Safeguarding Policy

Reviewed September 2024

To be reviewed September 2025

This policy applies to every stakeholder that works at/visits Highwoods Primary school. It is based on the NSPCC model policy for keeping children safe.

The purpose of this policy is to:

- Protect children and young people from any sort of harm;
- Provide adults (staff and volunteers) with the overarching principles that guide our approach to safeguarding children and child protection.

We recognise that:

- The well-being and safety of the child is paramount;
- All children, regardless of gender, age, ability, disability, ethnic origin, sexual orientation, religious beliefs, racial heritage or identity, have equal right to protection from harm or abuse;
- Some children are at greater risk to harm or abuse due to the impact of their previous experiences, communicational needs, level of dependency or other needs;
- Working in partnership with parents and carers is crucial to support the child, as is working closely with outside agencies and groups.
- We recognise that abuse or harm can happen to any child in any setting, therefore we must remain open, vigilant and sensitive to this at all times.

This policy has been drawn up with the statutory guidance and law that supports children and young people being safe (see latest versions of these documents)
